Some might say they know how to do SQL/Azure development, but they don't really have what it takes to deliver enterprise BI success. Collectiv's developers are at the opposite end of the spectrum. We aren't any old Joe Schmoe's...we're the experts.

Collectiv is the top-rated BI strategy and consulting firm on G2 and we're looking for top-tier SQL developers to join our 5-star team.

In this role, you'll bring your business acumen and technical expertise to the table and work side-by-side with enterprise teams all the way from strategy to implementation to support. You'll work on a wide variety of cool and challenging projects that continually expand your knowledge base and skillsets

### **Your responsibilities include:**

- Improving client outcomes via development.
- Creating, editing, and maintaining SQL functionality—primarily in SQL Server and Azure SQL Databases.
- Working directly with Collectiv clients, consultants, and project managers.

Our mission at Collectiv is simple: We help enterprises make better decisions. We achieve this by augmenting and empowering enterprise teams with our real-world experience and deep industry expertise in Power BI and the entire Microsoft data stack.

### **Our core values include:**

- Do Amazing Things with Humility
- Trust Your Team
- Be a Quality Empathetic Communicator
- Be a Decisive, Proactive, Daring Doer
- Keep Calm and Carry the F#@k On

Fulfillment, flexibility, and freedom are the top reasons why the best of the best choose to work at Collectiv. We offer a remote work environment, a clear growth trajectory, and flexible opportunities that align with your work preferences and experience level.
